

COOKIE Information

Present terms are about the www.hotelmalomkert.hu webpage operated by the Új Pajtakert Kft. (8200 Veszprém, Fenyves u. 15.).

Please, read it carefully before using the webpage.

What are cookies?

Cookies are an IT data file or piece of information (including – but not exclusively – text files) that a website asks your browser to store on your computer (or on other internet compatible devices, like mobile phones and tablets). Cookies are created by the webserver when the user is browsing and saved onto the user's computer, then stored in a separate library. Every time the user goes back to the same website, the browser retrieves and sends this file to the website's server, thus the webpage can be reloaded again keeping the user's settings anonymously.

What do we use the cookies for?

The primary goal of cookies is to enhance the user experience, so they enable easier usability, customization and faster loading. We also use cookies for creating integrated, anonymous statistics that can contribute to our understanding of how visitors use our webpage, to help us optimize its structure and content. The information collected is kept anonymous, and we only use it to develop the webpage.

What types of cookies we use?

We use two types of cookies on our webpage: Session cookies only last for as long as the session, usually for the length of the current visit to a website or a browser session. Fixed cookies stay on your device depending on your browser settings, or until the user deletes them manually. Our partners' ways of using cookies always depend on their own privacy policies.

Protection of personal data

The data collected by cookies exclusively serves the purpose of enhancing the best possible user experience regarding the private settings of the user, not allowing a third-party to obtain it and not providing it to a third-party.

Deleting the cookies

Most browsers are set by default to accept cookies. You can change these settings by opting out of cookies, or you can require notifications about the type of cookies the visited webpage uses. For further information on changing the settings, please, check the Help menu of your browser or the settings on your mobile device. In case of denying to receive cookies, or refusing them other ways, the webpage might not work perfectly for you.
